

A hand is pointing with a black pen at a complex technical drawing of a mechanical assembly, possibly a yacht hull or engine component, rendered in blue lines on a dark background. The drawing includes various hatching patterns, circles with crosshairs, and dashed lines. The overall scene is framed by a large red and blue curved shape on the right side.

"A Real World Approach to Marine Consultancy"

MARINE CONSULTANCY SERVICES

Henderson International undertakes selected Key Assignments for major Organizations, Ship Yards, Financial Institutions, Interested Investors, and Key Marine Operations around the world. Such assignments fit into Henderson International's overall Marine Business Areas and Operational and Professional Expertise. As with all other Henderson International Divisions the Consultancy Area of Henderson International is a major force in the local market place with many satisfied clients to date.

Henderson International LLC has extensive experience in providing such services and suitable liaison with the Client to ensure the overall objectives are met in all respects.

PROJECT MANAGEMENT AND SITE SUPERVISION SERVICES

The building of a new Vessel requires professional Project Management, Site Supervision and Management Control to ensure quality build according to the Technical Design agreed with the Client and according to the detailed requirements of senior Client Management.

ISO CERTIFIED

The GROUP has expert personnel in all locations. Individual performance and written procedures are regularly reviewed in order that "Quality" can be controlled to meet and exceed international standards thus improving the services delivered to our Clients. We are fully committed to constantly re-evaluating and improving our performance and products.

RINA CERTIFIED

The Royal Institution of Naval Architects is an internationally renowned professional Institution whose members are involved at all levels in the design, construction, maintenance and operation of marine vessels and structures.

IIMS CERTIFIED

The International Institute of Marine Surveying (IIMS) is the premier independent, non-political organization whereby membership is open to Qualified Mariners, Cargo Surveyors, Yacht and Small Craft Surveyors, and Marine Consultants from around the world. Thus Henderson International encourages and supports each of its surveyors to undertake training and examinations in order to be members of IIMS.
